

\$5000 Kitchen Garden Competition

Network 10 and Coles are running a national competition for schools wherein they will give away \$5000 cash towards creating a Kitchen Garden at school. Such a kitchen garden aims to help students develop positive food habits through understanding about fresh seasonal produce and how it grows, how it is harvested and how it is turned into delicious meals.

If we were successful in winning this competition it would link very well into other initiatives that we are currently engaging in such as the OzHarvest FEAST program and future plans to rejuvenate the school community garden.

The application for this Kitchen Garden competition is easy and Somerly Primary School would appreciate it very much if as many as possible of our school community members could apply for the competition to increase our chance of winning. Please apply using the link below.
